# *Welcome*

Welcome to the "Merrydowns" 18th annual on farm ram sale.

What a great time to be a sheep and beef farmer with lamb at $12/kg, ewes at $8.20/kg, wool getting up over $5/kg and the beef market through the roof. An extremely tough spring for the 3rd year in a row. This was made easier by us following the kids sport, Stella's netball and ballet, Jess's netball in Dunedin and Jack's rugby for the Wyndham seniors. Congratulations to Wyndham for winning the senior competition, club of the year and team of the year for Southland rugby, totally deserved.

We are very pleased with the performance of the stock over the past year. Despite a particularly tough season, the stock have held their condition and performed at the highest level, constantly under pressure at 16 SU/ha."

We continue to focus on all the commercial traits; carcass confirmation, quality, fertility, lambing ease, udder attachment and teat placement, skin thickness, survival, and quality wool. We only allow the Romney Stud ewes to have one single, if they have two singles they go into the commercial flock. The lambing strings are an actual recording of the ram's historical fertility.

Our Romney and Southdown Studs continue to be SIL recorded; these are used as a culling tool only. Our linkages with other stud breeders are basically nil and we see this as a significant strength because it means we

are a source of out cross to the industry.

We have significant eczema bloodlines throughout the Romney flock. Both the Southdown and Romney ewes have not been drenched in the last 27 years and have been culled extensively during this time for ewe efficiency, dags and feet, we haven't had a foot bath for 20 years. We refuse to be sucked in by commercial gimmicks; in our view the most efficient sheep is the animal with the commercial traits listed above.

Please note we have simplified the catalogue format to focus exclusively on commercial traits that are most relevant to commercial farmers; growth, meat, wool and fertility. This targeted approach is designed to highlight the traits that directly contribute to increased profitability.

Please note the conditions of sale under ram transfers – it now reads as follows; Romney and Southdown rams purchased for breeding operations – registered or unregistered – will be a minimum of $3,000.

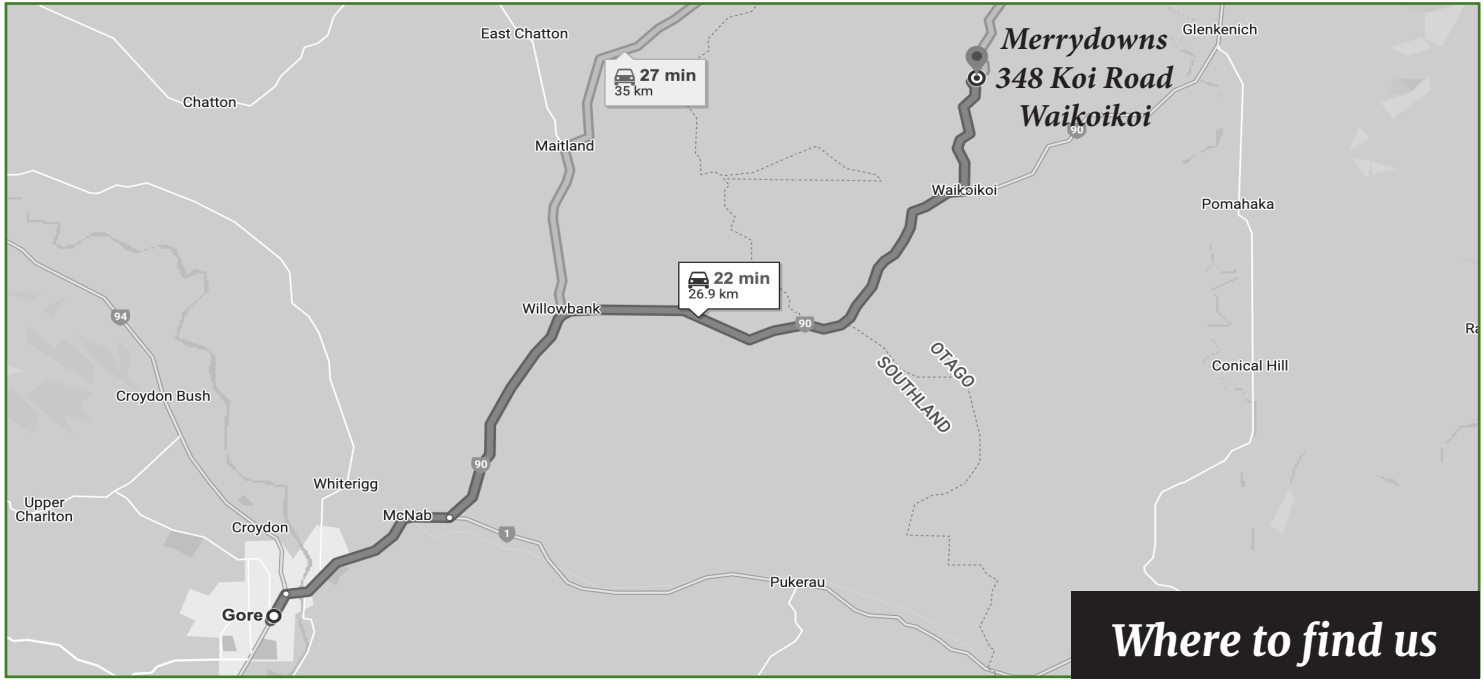

We look forward to seeing you on the 10 Dec 2026.

Kind Regards

Blair, Sally, Jess, Jack and Stella Robertson
